# Kashmir's lone industrial growth centre craving for infrastructure

Unit holders decry deficient road connectivity, poor cellular service, no fire station

**MUKEET AKMALI**  
Srinagar, Aug 10: Despite state government's tall claims about promoting manufacturing industry, Kashmir's lone Industrial Growth Centre (IGC) Lassipora is craving for basic infrastructure with unit holders complaining of incurring business and production losses. Talking to Greater Kashmir the unit holders highlighted a plethora of problems being faced by them for want of necessary infrastructure in the IGC.

**Deficient Roads**  
According to unit holders the IGC does not have a four-lane road connectivity to it. "The state government has played a joke with us. At the time of allotment of plots, we were assured by the authorities that the centre will have four-lane road connectivity from the outside, but that promise has proved a mirage." Presently, a single road link is leading to the IGC which according to them is too narrow. "Heavy trucks can barely run on this road. The result is that we cannot get heavy machinery to the IGC, nor can we transport large goods in bulk," they said.

Abdullah, last year had promised the unit holders at Lassipora that the road connecting the IGC to Srinagar-Jammu highway will be developed on fast-track basis to give fillip to the industrial activities in the IGC. The unit holders complained that the promise has not been kept. "The height is that the Pulwama-Lassipora road which is currently operational has been encroached upon at several places by the

locals yet the authorities are not taking any action." President, IGC Units Holders, Lassipora, Nazir Ahmad Shikari said the units suffer a lot for want of adequate road connectivity. "The Lassipora IGC is situated at least 15 kms from the main Pulwama district and only road connectivity available for unit holders is Pulwama-Tahab-Lassipora road and assurances by the state government to develop the

alternative Sangam-Lassipora four-lane road has remained confined to only papers," he said.

**Poor cellular service**  
The unit holders complained of poor cellular connectivity. It is a joke that the centre which houses state-of-the-art Controlled Atmosphere Stores is facing problem of poor cellular connectivity, they said.

Chief Minister, Omar Abdullah, last year had promised the unit holders at Lassipora that the road connecting the IGC to Srinagar-Jammu highway will be developed on fast-track basis to give fillip to the industrial activities in the IGC

**No fire station**  
The unit holders said that for every industrial estate it is mandatory to have an in-

house fire station to avert any mishap. "However, the IGC Lassipora does not even have a fire tender stationed there, not to talk of a full-fledged fire station," Shikari said. He said that during last few years a number of fire incidents have occurred causing huge damage to property worth crores of rupees in the centre. "But authorities are in no mood to commission fire station inside the IGC," he said.

**Official Version**  
A senior official in the Pulwama district administration said that Sangam-Tahab-Lassipora road link which will connect the IGC to Srinagar-Jammu highway has got struck for "issues of land compensation." "Due to these issues the work on the road is going on at a slow pace," he said. When contacted, General Manager, SIDCO, Aga Aijaz said that road development does not come under the jurisdiction of SIDCO. "District administration will be in better position to give details on this issue." However, he said that at the inception of IGC Lassipora there was a plan to have a four-lane road connectivity to the estate.

# Arun Jaitley nudges RBI to cut rate

New Delhi, Aug 10: Nudging the RBI to cut interest rates to boost growth, Finance Minister Arun Jaitley today said he had already made his mind clear and hoped the central bank will take decision after taking into account various factors. The Reserve Bank of India (RBI) had maintained status-quo on interest rate in its two credit policies announced after the formation of the new government in May. "I, on the same evening (June 3 and August 5) already issued a clear statement and I think that's very clear. This an issue that the RBI decides and I am sure they factor in various circumstances," Jaitley told reporters after addressing the Central Board of the Reserve Bank here. After the August 5 RBI's monetary policy, Jaitley had said inflation was moderating and going forward "the RBI should examine the liquidity situation, inflation and growth in setting policy rates". On June credit policy, he had said the government was "concerned with restarting" the investment cycle and moving towards higher growth and job creation.
